

Table of Contents

1. Introductory Materials

- Introduction to the BEST Plots and binders
- List of potential questions that can be asked using the BEST Plots
- Timeline for completion of protocols
- Academic Standards addressed by the BEST Plots
- Treatment Locations, Names and Codes
- Plot Treatment Layouts and Numbers

2. Protocols

- **Randomization Procedure**
- **Plot Planting Protocol**
- **Early Weeds Protocol and Datasheet**
- **Landscape Protocols**
 - Large and small scale methods and worksheet
 - Land use category key
 - Land use category examples
 - Grid paper
 - KBS practice map and map of blocks in your district
 - Presentation slides
- **Soil Protocols**
 - Soil Sampling and worksheet
 - Soil Texture and worksheet
 - Soil Moisture and worksheet
 - Soil Nitrogen and pH and worksheet
- **Biodiversity Protocols**
 - Plant Biomass Protocol and worksheet
 - Plant Biodiversity Protocol and worksheet
 - Invertebrate Biodiversity Protocol and worksheet

3. Lesson Plans

- **Bioenergy: An Introduction** – The what, how, and why of bioenergy
 - Lesson plan
 - Presentation slides
- **Biodiversity: It's all connected!** – Exploring biodiversity and organisms' interactions with their environments
- **How do we classify living things? Learning how to make dichotomous keys and trees**
 - Lesson plan
 - Classifying living things worksheet
 - Presentation slides
 - Dichotomous key for species planted into plots (no flowers needed)
 - Photo cards of all the species planted into the plots
- **Biotic Resistance: What can stop invasive species?**
 - Lesson plan
 - Biotic resistance worksheet and graph paper
 - Biotic resistance presentation slides

- Materials for activity – plots with different treatments

4. Resources – see bibliography for complete list

- Books
- Popular press articles
- Michigan press articles
- Educational resource websites
- Policy statements
- Ecological Society of America Reports
- Science News
- Scientific Articles
